## Helpful tips for writing your article

### 1. Develop a worksheet or an outline:

Start by brainstorming writing down your ideas as they come to you. Some things you may wish to include are: when and why did the business start, how the business developed and became a success, the product or service the company offers, etc. After clarifying what is important, begin to layout the basic structure in logical sequence.

### 2. Title of the article:

One the most important parts of the writing process is the title of the article. Without it, how do you entice the reader to look at your article? Using your company name or product name in the title may work as product recognition can be key with customers. Introducing the most important benefit of your product or service you offer can grab the reader's attention.

### 3. Introduction paragraph:

In your article, begin by recognizing your potential customers problem. You might try to grab the readers attention by beginning with a funny, clever or surprising statement. You can also begin the introduction with a question or motivational statement.

### 4. Body of article:

In your article, tell about the product or service your company offers and go into detail about the specifics and benefits. You are the expert, so let the potential customer know that. Quotes that express the opinions of others or customer testimonials can also be very useful. You may wish to go into your company profile, achievements, goals or reason for the business just make sure it doesn't turn into a mission statement. Adding human interest such as who helped you start, your family and yourself can give the article a personal touch, however, be aware that articles space is limited so focus on what is important to you.

### 5. Ending paragraph:

Review the important points of the article. You may wish to wrap it up with a catchy phrase or a quote. Be sure to include in the last paragraph your contact information so the potential customer may contact you about your product or service. Hey, they won't buy it if they don't know how to get it, right?

***As promised, with your 1/4th page or larger ad, send us your article & photo and we'll run it with your ad at no additional cost. Please submit your article and/or ad copy changes by: March 6th.***

***Thanks!***
